

LICHT
Be Light For Lighter

CRUZ WHEELZ

LICHT

Aviation-Certified, Universal Fit Effortless Power, On Land and Air. Lightweight Electric Conversion, Your Way.

1. Ultra-Lightweight & Portable

Only 5.2kg per wheel – 40% lighter than other competitors. Carry, store, and travel effortlessly.

2. Extended 20km Range + Air/Cruise Certified

Powered by an 6Ah aviation-certified lithium battery (tested to UN38.3 standards). Airplane or cruise worry-free – your battery is globally travel-approved.

3. Quick-Release Installation & Mode Switch

Attach/remove in seconds with the quick-release pin. Instantly toggle between Electric and Manual modes via the hub-mounted rotary switch.

4. Space-Smart Integrated Design

Fully integrated gear-brake hub motor eliminates bulky parts. Streamlined, compact, and visually refined for modern wheelchairs.

5. Universal Compatibility

Fits >90% of global rigid/folding wheelchairs. No complex adaptors – your wheelchair, empowered.

6. Personalize Your Ride

Multiple color combinations – match your style or wheelchair. Mobility meets self-expression.
